

GMReis Receives Regulatory Clearance for Fibula Nail

June 17, 2025 - We are proud to announce that the GMReis Fibula Nail is now FDA 510(k) cleared for marketing in the U.S.

With over eight years of clinical follow-up, the GMReis Fibula Nail offers a modern solution for specific applications where a minimally invasive approach is critical:

- Elderly patients
- Patients with poor skin quality
- Other selected indications where traditional plating may not be optimal

GMReis is exhibiting at OMTEC from June 17-19. Visit them at booth 715.
