

GMReis Expands Sports Medicine Portfolio with FDA 510(k) Clearance

November 14, 2025 - GMReis has received FDA 510(k) clearance for the complete FASTLOCK line—knotless, tape-loaded anchors designed for ligament augmentation in the foot, ankle, knee, shoulder, and hip.

This achievement expands the company's Sports Medicine portfolio, bringing FDA-cleared, high-performance solutions developed to deliver precision, strength, and versatility in soft fixation.
